1U lithium battery ups uninterruptible power supply

Overview

This 500VA line interactive 1U short depth rackmount UPS with Lithium-ion battery provides pure sine wave power to support critical electronics during power disruptions. Do uninterruptible power supplies use lithium-ion batteries?

Unlike the batteries in other devices around your home, like your smartphone and Bluetooth speakers, Uninterruptible Power Supplies don't use lithium-ion batteries. The batteries in your UPS are lead-acid batteries, like the battery in your car.

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) combines surge protection and battery backup into one unit. Adding a UPS to your computer, router, or other electronic device protects them from damage and ensures uptime. Uninterruptible power supply (UPS) units aren't just for data centers and overly cautious geeks.

Do you need a battery backup or uninterruptible power supply (UPS)?

Everybody understands the frustration that comes with a sudden power cut, destroying hours of unsaved work or internal computer components. A battery backup or uninterruptible power supply (UPS) may be the only solution, providing backup power and protecting your computer hardware from electric surges and spikes.

What is a military grade uninterruptible power supply?

SynQor's Military-Grade Uninterruptible Power Supply units are designed for the extreme environmental and demanding electrical conditions of Military/Aerospace applications. SynQor's UPS incorporates field proven high efficiency designs and rugged packaging technologies.

What are the benefits of a Smart-UPS with lithium-ion batteries?

Smart-UPS with lithium-ion batteries saves up to 50% in Total Cost of

Ownership (TCO) over the lifetime of the UPS. Battery life is increased 2X. Reduced maintenance cost and improved battery performance in temperatures up to 104°F. UPS management options include PowerChute Business Edition and an embedded Network Management Card.

What is a synqor ups?

SynQor's UPS incorporates field proven high efficiency designs and rugged packaging technologies. This UPS will accept a wide range of input voltage and frequency values while delivering a well-conditioned AC output to the load. The use of lithium ion batteries permits the lowest profile and lowest weight solution in its power class.
