

## SolarInnovate Energy Solutions

# 2000w solar inverter in China in Ireland

## Overview

---

What is micro inverter 2000W?

Reasonable price micro inverter 2000W is a grid connected solar inverter with 433MHz wireless communication and IP65 waterproof streamline design, convert 24 V / 48 V (22-60 V DC) to 80-160 V / 185-265 V AC, the AC output can be chosen 120 V or 230 V according to the local grid voltage, built-in high-performance MPPT function for higher efficiency.

What is a Micro solar inverter?

Economical price grid tie inverter with 110V pure sine wave AC output, micro solar inverter 2000W MPPT with IP65 Waterproof, more stable and efficient. The working temperature of this solar power micro inverter between -20 °C to 50 °C. Smart micro inverter often used in farming generation system, power station and household use.

What is a photovoltaic micro inverter made of?

The shell of the photovoltaic micro inverter is made of pure aluminum alloy with a low resistance copper core. Waterproof connectors enhance safety by reducing the risk of electrical hazards such as short circuits or corrosion due to moisture exposure.
