60v vs 12v inverter

Overview

What is a 6V to 12V converter (inverter)?

The PGPI is a 6V to 12V converter for vehicles that still have a 6V, positive ground electrical system. It is necessary if you are still running positive ground for all of our radios, which run on a 12V, negative ground electrical system. The PGPI positive ground inverter comes with detailed wiring instructions.

How much power does a 12 volt inverter need?

At 2500 Watts, the 12 Volt inverter would need over 200 Amps from the 12 volt converter. At 2500 Watts, the 12 Volt inverter would need over 200 Amps from the 12 volt converter. That would need some very fat cable. When you're dead, you don't know it, the pain is only felt by others. The same thing happens when you're stupid.

Which 12V 240V Inverter should I buy?

If you need a heavy-duty 12V to 240V inverter, the Silverline 263764 is a good, if expensive, choice. The 700W maximum output was the highest on test, and the fan didn't kick in until we plugged in the laptop and the battery charger. Another plus point was the quietness of the fan, as it was only 5dB louder than the ambient noise inside the car.
