

**SolarInnovate Energy Solutions**

# **Austria s No 1 inverter manufacturer**

## Overview

---

How many Fronius inverters are there in Australia?

“Fronius has a strong bond with the Australian and New Zealand markets, with more than 500,000 inverters installed since opening our subsidiary doors in 2010,” says Fronius Australia managing director Mariella Doppelbauer.

What makes Fronius a great inverter?

Fronius is committed to maintaining and enhancing its dedication to quality as it ramps up production worldwide. “Fronius takes quality and longevity very seriously,” says Doppelbauer. “Even with increased output, our testing centre has not had to compromise. Every one of our inverters spends two-thirds of its time on the test bench.

How many inverters will Fronius produce in 2023?

Through this expansion, Fronius’ production capacity will grow by 65 per cent. By the end of 2023, it is expected 52,000 new inverters will be ready to serve the global market every month. “We are excited to be nearing completion of our expansion project,” says Doppelbauer.

Why are our products made in Austria?

From research and development to production: Almost all of our products, solutions and digital tools are developed and – predominantly in Austria. So they are “Made in Austria” and “100% Made in Europe”. We firmly believe that the close proximity of everyone involved is also essential to the high product quality our customers know they can rely on.
