

SolarInnovate Energy Solutions

Bangkok photovoltaic glass greenhouse customization

Overview

What is a greenhouse integrated PV (gipv) module?

Get in touch! Traditional greenhouses rely on external fossil fuel derived energy sources to power lighting, heating and forced cooling. Specially designed BiPV solar glass modules for greenhouses, Heliene's Greenhouse Integrated PV (GiPV) modules offer a sustainable alternative with no additional racking or support required.

What types of greenhouses can sail shades Thailand offer?

We are able to offer all kinds of greenhouses at Sail Shades Thailand. CAD designed, quality structures for commercial agriculture. Our greenhouses are great for many types of agriculture, including Aquaponics & Hydroponics systems. We can also design special "Tropical style" Greenhouses with natural ventilation systems.

How big is the greenhouse horticulture market?

The blooming greenhouse horticulture market is expected to reach \$50 billion by 2028. At the same time, energy costs, grid constraints and public policy are fueling growth in on-site solar generation. Ready to go green and grow more with Heliene's agrivoltaic modules?

.

What is the future of greenhouse horticulture?

Many have turned to greenhouse farming techniques to ensure food quality and output. The blooming greenhouse horticulture market is expected to reach \$50 billion by 2028. At the same time, energy costs, grid constraints and public policy are fueling growth in on-site solar generation.

Can CAD design a greenhouse for commercial agriculture?

CAD designed, quality structures for commercial agriculture. Our greenhouses

are great for many types of agriculture, including Aquaponics & Hydroponics systems. We can also design special “Tropical style” Greenhouses with natural ventilation systems. Contact us today for more information.
