# **Battery cabinets in Warsaw**

## Overview

---

Is Poland moving towards battery energy storage systems (Bess)?

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased.

How many MW rated energy storage systems are there in Poland?

The capacity obligations for these projects ranged from 1.2 MW to 153 MW rated power, with an average capacity of around 30 MW. The decision to reduce the de-rating factor for energy storage systems in the last capacity market auction in Poland from 95 percent to 61 percent did not prove detrimental to the market.

Why is battery Forum Poland so important?

WHY IS IT WORTH IT?

BATTERY FORUM Poland is an industry specialized event held at Ptak Warsaw Expo, the Largest Trade Fair and Congress Center in Central Europe. Aimed at bringing together all branches of the energy and power industry and creating convenient conditions for professional business contacts.

Who is Saft battery?

Saft specializes in advanced technology battery solutions for industry, from the design and development to the production, customization and service provision. For more than 100 years, Saft's longer-lasting batteries and systems have provided critical safety applications, back-up power and propulsion for our customers.
