

SolarInnovate Energy Solutions

Battery energy storage company in Krakow Poland

Overview

How is the battery storage industry changing in Poland?

The Battery Storage industry in Poland is rapidly evolving, driven by the increasing demand for renewable energy and the need for grid stability. Key considerations include the regulatory environment, which is influenced by both European Union directives and national energy policies aimed at promoting sustainable practices.

Is Poland moving towards battery energy storage systems (Bess)?

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased.

How many MW rated energy storage systems are there in Poland?

The capacity obligations for these projects ranged from 1.2 MW to 153 MW rated power, with an average capacity of around 30 MW. The decision to reduce the de-rating factor for energy storage systems in the last capacity market auction in Poland from 95 percent to 61 percent did not prove detrimental to the market.

Will EDF renewables build a second battery energy storage facility in Poland?

EDF Renewables has completed the acquisition of a second battery energy storage project in Poland, with a capacity of 120 MW, increasing its total storage capacity in the country to 170 MW. Construction of the new facility will start in late 2025, with commissioning set for early 2028.

How can Stora support Poland's energy transition?

At Stora Energy, we are proud to directly support Poland's energy transition. By developing grid-scale battery energy storage systems (BESS), we play a crucial role in ensuring a smooth and efficient transition to a more sustainable energy system.

Who is Stora energy?

Stora Energy is a Polish family-owned firm dedicated to energy and grid stabilization. With decades of experience, we provide stability to the electrical grid, ensuring increased reliability and security. Join us in supporting Poland's energy transition.
