# Best factory price bryant breakers manufacturer

## Overview

---

Which brand of Bryant circuit breakers is best?

Siemens is a top choice among many contractors when it comes to circuit breakers, including those looking to replace old Bryant breakers. If you find it too costly or difficult to find replacement Bryant circuit breakers, it can be a better option to replace your old Bryant circuit breakers with new ones from Siemens or other compatible brands.

How much does a new Bryant breaker panel cost?

A new circuit breaker panel from Bryant costs between \$13 and \$53. It's a popular enough brand that you can purchase refurbished breaker panels from many stores if your budget is a concern, but used products aren't typically covered under product-protection plans.

Does a Bryant factory authorized dealer recommend the best equipment?

Even if a dealer recommends the best equipment, how well it performs and meets your unique needs depends heavily on their expertise in installing and servicing that equipment, and on how well they take care of you as a valued customer. Bryant Factory Authorized Dealers have earned our approval, and they'll do Whatever It Takes® to earn yours.

What if I am dissatisfied with my Bryant equipment?

If, for any reason, you are dissatisfied with your Bryant equipment within one year of the installation date, your Bryant Factory Authorized Dealer will correct the problem or remove the equipment and refund your purchase price. Ask your Dealer for a copy of the guarantee for details and restrictions.
