

**SolarInnovate Energy Solutions**

# **Brasilia Photovoltaic Energy Storage 100kw Inverter**

## Overview

---

What is a hybrid solar inverter?

Built-in isolation transformer makes the system more secure. Power output is more stable. The 100KW 150KW 200KW 250KW 300KW 400KW 500KW Hybrid solar inverter is designed for medium and large commercial and industrial photovoltaic storage power plants. It integrates a MPPT PV charge controller with a PCS AC/DC converter and an isolation transformer.

How many inverters can a 3 phase hybrid inverter support?

Supporting parallel operation of up to 4 inverters, it can be expanded to an impressive 400kW capacity, making it ideal for high-power applications. The 100kW 3-Phase Industrial Hybrid Inverter is a powerful and scalable solution designed to meet the demands of large industrial energy systems.

Does GoodWe offer a battery inverter?

GoodWe, a world-leading inverter manufacturer and energy storage solutions provider, has expanded its C&I energy storage solutions portfolio with two new additions: the ETC 100kW hybrid inverter and the BTC 100kW retrofit battery inverter, both of which can be coupled with GoodWe high-voltage battery system Lynx C (101kWh - 156kWh).

Why should you use Solis cloud inverter for C&I PV systems?

Combined with the rich online O&M tools provided by the Solis cloud platform, it can effectively reduce O&M costs, simplify O&M, and improve system efficiency. This inverter provides more efficient, safe, intelligent, and economical high-power inverter solutions for C&I PV systems.

How many Lynx C batteries can a 100kW inverter run?

Each 100kW ETC Series inverter can be paired with up to 6 Lynx C batteries, allowing for a 100kW/936kWh energy storage system to meet various C&I scenarios. Meeting the needs of smaller systems, the ETC50kW inverter can

be combined with three Lync C towers to form a 50kW/468kWh energy storage solution.

Why should you use energy storage inverters?

By utilizing the energy storage system during periods of high energy demand, the inverters can help reduce peak demand charges and lower overall energy costs for customers.
