

SolarInnovate Energy Solutions

Brazil Sao Paulo lithium battery pack outer box company

Overview

Who is launching a battery company in Brazil?

Brazilian battery manufacturer Moura, fuel-cell producer Electrocell, and a consortium formed by Companhia Brasileira de Metalurgia e Mineração (CBMM) and Japanese Toshiba, also plan to establish a presence in the segment.

How much lithium does Brazil produce?

Brazil produced only 600 metric tons (mt) of lithium in 2018, accounting for about 0.7% of the global market. The country's entire output of the mineral was mined by Companhia Brasileira de Lítio (CBL), a company co-owned by CODEMGE.

Is Brazil a good place to invest in batteries?

Environmental concerns are paramount, particularly regarding the ecological impact of mining and battery disposal. Furthermore, Brazil's strategic position in the global market for batteries, particularly as a supplier of raw materials, adds another layer of complexity and potential for growth.

Why is the battery industry booming in Brazil?

When exploring the battery industry in Brazil, several key considerations emerge. The country is witnessing a surge in demand for batteries, particularly in electric vehicles and renewable energy storage, driven by government incentives and a commitment to sustainability.

Why is Brazil a key player in the battery industry?

Furthermore, Brazil's strategic position in the global market for batteries, particularly as a supplier of raw materials, adds another layer of complexity and potential for growth. Engaging with local stakeholders and understanding the socio-economic context can significantly enhance prospects in this dynamic industry.

Which OEMs are sourcing lithium-sulfur batteries?

Among the OEMS that have expressed interest in sourcing batteries from the new plant are Brazilian aircraft manufacturer Embraer, Boeing, Lockheed Martin, Airbus, Mercedes-Benz, and Porsche. The joint venture's lithium-sulfur battery technology has been developed by its UK partner, Oxis Energy.
