Budapest power storage policy

Overview

Does Hungary need a state aid energy storage scheme?

The national funding will support the installation of 800MW of large-scale electricity storage. Hungary seeks to increase storage capacity in order to offer greater grid flexibility. Credit: Dorothy Chiron via Shutterstock. The European Commission has approved a €1.1bn (\$1.2bn) state aid energy storage scheme from the Government of Hungary.

Will Hungary support the installation of new electricity storage facilities?

Hungary notified to the Commission, under the Temporary Crisis and Transition Framework, a Hungarian scheme to support the installation of at least 800 MW/1600 MWh of new electricity storage facilities.

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Will Hungarian electricity storage facilities support a net-zero economy?

The European Commission has approved a €1.1 billion (approximately HUF 436 billion) Hungarian scheme to support electricity storage facilities to foster the transition to a net-zero economy.

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.

Why is EU funding 800MW of energy storage in Hungary?

The EU has approved a \$1.2bn state aid funding package for 800MW of energy storage in Hungary as the country seeks to up its renewables.
