

SolarInnovate Energy Solutions

Bulgaria three-phase inverter

Overview

Who sells hypontech photovoltaic inverters in Bulgaria?

Hypontech photovoltaic inverters combine high quality and affordable price. NENCOM is the exclusive representative of Hypontech in Bulgaria. We sell on-grid and hybrid inverters wholesale and retail, we help with settings.

Can a hypontech 3 phase hybrid inverter work without a battery?

Important: Hypontech three-phase hybrid inverters can work with unbalanced load in any of the modes (including without a battery). The output power on each phase can independently vary from zero to 1/3 of the inverter's rated power.

How much power does an inverter use?

The output power on each phase can independently vary from zero to 1/3 of the inverter's rated power. In case of emergency shutdown of the grid, switching to battery operation takes less than 10 ms, providing uninterrupted power supply.

How to monitor a photovoltaic system with a hypontech inverter?

Connectors HiManager Manual Hypontech HiManager For monitoring photovoltaic systems with Hypontech inverters via the Internet there is a free Hypon.Cloud. Each installer or system owner can register a power plant on the portal to monitor it in real time and analyze statistics.

Where can I find a certificate for a TÜV SÜD inverter?

Additionally, in the description of each series of inverters you will find the corresponding certificates. Most of the certificates are issued by TÜV SÜD Product Service GmbH (Germany) and can be checked by the number on the official website of the testing organization.

What is a series HPT inverter?

Series HPT with power from 15 to 25 kW — are 3-phase on-grid inverters with two independent MPPTs (two inputs per tracker). Input voltage up to 1000 V. Series HPT with power from 30 to 50 kW — are 3-phase on-grid inverters with input voltage up to 1100 V. Modifications with power of 30, 33 and 36 kW have 3 independent MPPTs.
