# **Canadian Energy Storage Generator Container**

## Overview

---

Who is energy storage Canada?

Energy Storage Canada is the only national voice for energy storage in Canada today. We focus exclusively on energy storage and speak for the entire industry because we represent the full value chain range of energy storage opportunities in our own markets and internationally.

What are the top 10 energy storage companies in Canada?

This article will mainly explore the top 10 energy storage companies in Canada including TransAlta Corporation, AltaStream, Hydrostor, Moment Energy, e-STORAGE , Canadian Renewable Energy Association, Kuby Renewable Energy, e-Zinc, Selantro , Discover Battery.

What types of energy storage are available in Canada?

There are three main types of energy storage currently commercially available in Canada: Storage is playing an increasingly important role in the electricity system by improving grid reliability and power quality, and by complementing variable renewable energy sources (VRES) like wind and solar.

What is the fastest growing energy storage technology in Canada?

BESS is the fastest growing energy storage technology in Canada and is also the dominant storage technology in terms of capacity and number of sites. All but four projects proposed to be commissioned by 2030 are battery storage, with two CAES and two PHS projects also proposed.

Why is energy storage important in Canada?

With a target of net-zero emissions by 2050, energy storage is vital for enhancing grid reliability and integrating renewables. Currently, Canada's installed storage capacity is under 1 GW, but projections indicate a need to boost it to over 12,000 MW by 2030, making the market ripe for development and financing.

What is Canada's first battery energy storage facility?

TORONTO, May 7, 2025 – The Oneida Energy Storage Project (“Oneida”) has officially entered commercial operations, becoming the largest battery energy storage facility in operations in Canada, and one of the largest globally. Follow along for a behind-the-scenes look at building Canada’s first battery energy storage facility.
