Chilean Communications 5G Base Station Latest

- ✓ 100KW/174KWh
- ✓ Parallel up-to 3sets
- ✓ IP Grade 54
- ✓ EMS AND BMS

Overview

Will Chile be able to implement a 5G network?

Accordingly, the Transportation and Telecommunications Ministry (MTT), through the Undersecretary of Telecommunications, announced that the public tender to implement a 5G network in Chile will include the obligation to connect 366 areas throughout Chile with 4G technology in the 700 MHz band.

How will Chile become a digital hub for Latin America?

Other initiatives currently being promoted are “Wifi ChileGob 2.0”, which will add 1,200 new public Wifi points in Chile, and the Transoceanic Cable that will strengthen Chile’s international connectivity, positioning it as the Digital Hub for Latin America and connecting it to the Asia-Pacific region.

Which projects are being implemented in parallel with the 5G tender?

Therefore, projects are being implemented in parallel with the 5G tender that will increase fiber optic cabling to cover every corner of the country, such as the Fibra Óptica Austral (Southern Fiber Optic Cable) and Fibra Óptica Nacional (National Fiber Optic Cable) initiatives.
