China solar powered generator in Myanmar

Overview

A Memorandum of Understanding (MoU) has been signed between the Ministry of Investment and Foreign Economic Relations (MIFER) and the Chinese International Development and Cooperation Agency regarding the construction of four solar power projects in Yangon, Naypyidaw and Mandalay Regions with a total capacity of 190 megawatts with a total investment of \$1 billion from China. Who owns Myanmar's solar market?

Myanmar's solar market is predominantly led by Chinese companies, including Sandisolar. In 2022, Sandisolar completed 36 solar projects and that number rose to 115 in 2023, with over 200 projects planned for 2024, Thi Thi Soe said. This growth highlights the increasing use of solar energy in the Southeast Asian country, she added.

Will Myanmar build solar power plants?

On the occasion, Secretary of the State Administration Council Lt-Gen Aung Lin Dwe said as Myanmar is rich in renewable energy sources such as hydropower, solar and wind power, it will make full use of the advantages provided by the nature and build solar power plants.

What are the main power-generating companies in Myanmar?

The Hydropower Generation Enterprise (HPGE) and the Myanmar Electric Power Enterprise (MEPE) are the main power-generating companies in Myanmar. The Yangon City Electricity Supply Board (YESB) distributes power to consumers in Yangon, and the Electricity Supply Enterprise (ESE) distributes power to the rest of the country.

Why is solar energy on the rise in Myanmar?

(Xinhua/Myo Kyaw Soe) YANGON, Oct. 5 (Xinhua) -- The adoption of solar energy in Myanmar is on the rise due to increasing oil prices and electricity costs, Thi Thi Soe, deputy general manager of Sandisolar, a Myanmar-based Chinese new energy company, told Xinhua on Friday.

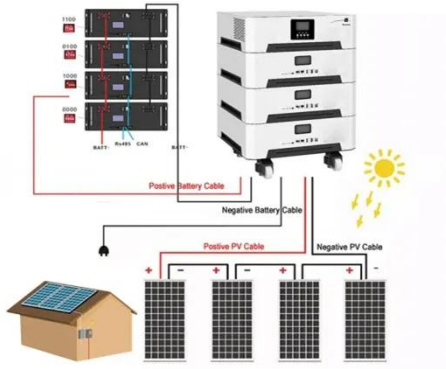

Why are Chinese solar panels popular in Myanmar?

Chaik Sai, 46, expressed his preference to Chinese-made solar panels, noting their popularity in Myanmar. These panels can provide steady power and light, which helps prevent the frequent on-and-off situations that can damage electrical appliances.

Can solar panels be installed on a house in Myanmar?

This photo taken on Oct. 4, 2024 shows solar panels installed on the roof of a house in Yangon, Myanmar. (Xinhua/Myo Kyaw Soe)
