Companion 40ah power station in Botswana

Overview

How much power does a companion Rover 40 Power Station have?

The Companion Rover 40 Power Station is small in size but packs a decent punch, offering 40amp of lithium power in a package that weighs just 6.5kg, which is enough to keep my 47L myCOOLMAN fridge running for just under two full days without a charge. I can charge the power station back up via 240V mains, 12V or solar.

What is the power sector in Botswana?

Revised in April 2025, this map provides a detailed view of the power sector in Botswana. The locations of power generation facilities that are operating, under construction or planned are shown by type – including liquid fuels, gas and liquid fuels, coal, hybrid, hydroelectricity and solar.

What is a companion Rover power range?

The Companion Rover Power Range features portable power stations for outdoor adventures, off-grid living, and emergencies. From the lightweight Rover Lite to the powerful Rover 1300, these lithium-ion units offer reliable performance, multiple charging options, and versatile outputs.

How to use a 40ah power station?

Step 1 . 40AH POWER STATION POWERING APPLIANCES The power station consists of multiple outputs that can be used at the same time. Step 1. Turn on the power station by holding the power button for three seconds. Step 2.

What is the 40ah power station warranty policy?

40AH POWER STATION WARRANTY POLICY 1. Products distributed by Adventure Operations Australia Pty Ltd and any of our subsidiaries come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage.

How much power does a companion 200W solar charger produce?

When connecting the Companion 200W Solar Charger to my vehicle's battery, it could produce at best 10amp of output, which is fine by me. Companion claims a maximum output figure of 11.1amp per hour, so it's not far off the money.
