Why should you invest in solar energy in Costa Rica?

Lester provides excellent service and value for solar projects in Costa Rica. We decided to invest in solar energy for a couple reasons. One was, the project that we have going on our property, we're trying to do things in a more sustainable way. The solar energy really fit in with the whole project.

Why should you buy energy storage in Costa Rica?

Energy Storage allows our customers to save solar energy for later use, whether that be during a power outage or simply to be used later on the day,

when grid electricity increases in price. Many clients energy security is important for their home offices, this is becoming the number one reason for purchasing energy storage in Costa Rica.

How does a solar inverter work?

Solar radiation from the Sun is captured by solar panels, which produce PV electricity and send it to the inverter. The inverter converts the PV electricity (DC, or direct current) to AC (alternating current) electricity. AC electricity is passed to the home's breaker box and then to household outlets and appliances.
