Costa Rica Three Telecommunications Base Station Wind Power

Overview

Why did Costa Rica join the wellbeing Economy Alliance?

In 2018, Costa Rica joined the Wellbeing Economy Alliance, a collaboration of organizations, alliances, movements, and individuals worldwide, all working toward an economy that puts human and ecological well-being first.

What is Costa Rica's goal?

Costa Rica's goal is to transfer 70 percent of public buses and taxis to clear air alternatives, like electricity, by 2035, and make them entirely emission-free by 2050. The National Decarbonization Plan also includes initiatives to develop integrated, low greenhouse gas emission systems to collect, separate, reuse and dispose of waste by 2025.

Is Costa Rica a sustainable country?

In Costa Rica, sustainability is a way of life. The country has long been a pioneer in protecting its plentiful natural resources, including its biodiverse cloud forests and rainforests, golden and black sand beaches, and active volcanoes' vibrant ecosystems. Today, it's on a mission to become the first carbon neutral country on the planet.
