Overview

What is a custom LiFePO4 battery pack?

Our custom LiFePO4 battery packs are made in cylindrical and prismatic formats. LiPo batteries allow for greater flexibility and ensure the perfect fit for vehicles, machinery, and other various devices with unusual dimensions and weight requirements. Why Choose CMB As Your Custom Battery Pack Manufacturer?

What is a custom battery pack assembly service?

CMB's custom battery pack assembly services involve evaluating battery chemistries, casing design, and management systems based on customer needs. The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements.

What are rechargeable lithium-ion batteries used for?

Rechargeable lithium-ion batteries find extensive use across a broad spectrum of applications. Some of the areas where our battery systems excel include: Our power packs are ideal for medical carts, handheld devices, surgical equipment, monitoring devices, and more. We have the ISO 13485 certificate for manufacturing batteries for medical devices.

What is a 21700 lithium ion battery?

CMB's 21700 Li-ion battery packs offer advanced lithium-ion battery technology in compact and high-energy-density packaging. They provide superior power and longevity suitable for various applications. Our custom low-temperature batteries are specially designed to excel in cold environments.

Can lithium ion batteries be recycled?

The demand for lithium ion batteries has been increasing lately. Our batteries can be recycled easily and with very little of a hassle. After supporting 6000+ projects, we're sure that we can do the hassle-free solution and service for

you. Not only to protect your investment, but also our advanced BMS will make your battery more efficient.
