

SolarInnovate Energy Solutions

Doha 50W photovoltaic energy storage project

Overview

How much energy does the Al Kharsaah solar power plant generate?

The Al Kharsaah solar power plant was built in two phases of 400 megawatts-peak (MWp) each, and therefore has a full capacity of 800 MWp. During its first year of operation, it is expected to generate almost two million megawatt-hours (MWh), the equivalent energy consumption of approximately 55,000 Qatari households.

What is Al Kharsaah solar?

of Qatar's peak electricity demand covered by Al Kharsaah. Located 80 km west of Qatar's capital, Doha, the Al Kharsaah Solar PV Independent Power Producer (IPP) project is the country's first large-scale solar power plant and is set to significantly reduce its environmental footprint.

Is Qatar a good place to develop solar energy?

Qatar boasts the ideal conditions for developing solar energy with its exceptional sunshine and vast unoccupied spaces. This is where the Al Kharsaah solar power plant, developed by TotalEnergies and its partners QatarEnergy and Marubeni, was inaugurated in October 2022.
