Does iContainers deliver to the Dominican Republic?

iContainers does have physical and operational presence in the Dominican Republic, managing operations from and to the United States. However, it is important to note that in the Dominican Republic, Saturdays and Sundays are not considered work days, which may impact the speed of delivery of the shipment.

Will a 40 MW solar plant improve the efficiency of Punta Catalina?

EGEPC has launched a tender for a 40 MW solar plant to enhance the efficiency of its Punta Catalina thermoelectric plant in the Dominican Republic. The project is designed to reduce greenhouse gas emissions by integrating solar energy into the existing coal-fired units, which generate 720 MW for the National Interconnected Electric System (SENI).

When will egepc's solar project be financed in the Dominican Republic?

The final tender award is set for March 24, and the project will be financed with EGEPC's own resources. As of the end of 2023, the Dominican Republic had 1,073 MW of installed PV capacity, according to the International Renewable Energy Agency (IRENA).
