

SolarInnovate Energy Solutions

East Timor Energy Storage Power Station General Contractor

Overview

What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

What is East Timor electrification masterplan 2025?

The overall objective of this project is to develop, for the Government of East Timor, the Electrification Masterplan 2025 of East Timor based on Renewables Energies. The East Timor Renewable Energy Electrification Plan consists on the thorough analysis of wind, solar and hydro resources (including wind measurement stations installation).

Will timorgap supply natural gas to three power plants?

In this context, TimorGAP, the country's national oil company, awarded a tender in March 2020 to Wood Group Kenny Energy to undertake the feasibility study for supplying natural gas to the three power plants in Hera, Betano, and Oé-Cusse. This study is expected to be completed by October 2021.

Does Timor-Leste rely on imported diesel fuel?

Currently, Timor-Leste relies almost entirely on imported diesel fuel for its power generation, which poses significant challenges in terms of fiscal burden and greenhouse gas emissions.
