Egypt ap40 battery cabinet

Overview

What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

What is a C&C power battery enclosure?

C&C Power Battery enclosures are configured to meet the need of all types of applications. Battery cabinets are engineered for an uninterrupted power backup source to support the continuous operation of your critical facility.

Where can I find the instruction manual for the batteries?

Inside the door there is a document pocket containing the instruction manual for the batteries. The sections can be fixed together to form a single cabinet. Where required, the cabinet is completed by a special compartment or switch/disconnector cubicle containing the protection equipment.
