France Lyon UPS uninterruptible power supply 360w

Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) is a device designed to provide power when the power goes out. A sudden outage can cause not only the loss of important data, but also damage to equipment. With a UPS connected, you gain time to save your work and safely shut down your equipment.

Where can I buy a static & dynamic ups?

As the exclusive ACTIVE POWER dealer and official ABB reseller in France, Eneria can offer a unique catalogue of static UPS (Uninterruptible Power Supply) and dynamic UPS . Fluctuations and failures of the power supply, from simple voltage dips to total power cuts, can have disastrous consequences on the products or services of your activity.

What is a power ups & how does it work?

A ups is a device used to generate current. It replaces a faulty or missing power supply. It is a safe, uninterrupted backup power solution that provides electrical protection for networks, data centers, critical systems and industrial manufacturing processes.

How much power does an ups have?

With a total power of 360W and an apparent power of 600VA the UPS is equipped with AGM Green Cell batteries, which provide stable parameters for your equipment. Using the latest technology, we have achieved a maximally short time to switch UPS into battery power mode of 2-6 milliseconds and a back-up time of even 20 min depending on the load.

What is a green cell UPS emergency power supply?

The Green Cell UPS emergency power supply provides full protection for any connected equipment during power loss and voltage spikes. With it you can safely save your work and safely switch off the device.

What is a green cell power proof power supply?

This determines how quickly the UPS reacts in the event of a power failure. Green Cell Power Proof uninterruptible power supplies guarantee the lowest switching times - even less than 10 ms (Line Interactive AVR) and, for equipment particularly sensitive to power cuts, 0 ms (GC UPS Online), while maintaining absolute continuity of energy.
