

SolarInnovate Energy Solutions

French local communication BESS power station company

Overview

What is France's largest battery energy storage system (BESS)?

Leading battery storage developer Harmony Energy is set to deliver France's largest battery energy storage system (BESS)—the Cheviré battery project – using Tesla Megapack technology. The project will mark a significant milestone for the French energy system, being France's first large-scale 2-hour battery.

What is a Bess battery?

The BESS facility will be equipped with Tesla Megapack technology. The project will be built at Nantes Saint-Nazaire harbour. Credit: © Harmony Energy. UK-based Harmony Energy has announced that it will commence construction on the Cheviré battery project, France's largest battery energy storage system (BESS).

Who is delivering a battery energy storage system in France?

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents Envision's first independent storage contract in the French market and signals its continued European expansion.

What does Bess stand for?
