Georgia Emergency Energy Storage Power Supply

Overview

Georgia Power is implementing 500 MW of battery storage systems to enhance the reliability of Georgia's electric grid, in line with the Georgia Public Service Commission's approved 2023 Integrated Resource Plan update. Does Georgia Power own energy storage?

Georgia Power first examined energy storage in its 2019 IRP, with approval to build, own and operate 80 MW of BESS at the time. Tristan is an Electrical Engineer with experience in consulting and public sector works in plant procurement. He has previously been Managing Editor and Founding Editor of tech and other publications in Australia.

Will Georgia's energy storage project improve grid resiliency?

"We expect this energy storage project to enhance grid resiliency and enable the deployment of increased intermittent emission-free energy on Georgia's electric grid," said Oglethorpe Power President & CEO Mike Smith.

Will Georgia get a \$249 million grant to prevent power outages?

ATLANTA (AP) — A \$249 million federal grant to Georgia aims to prevent power outages and store electricity on the grid. The money was granted to a state agency, which will pass it to entities owned by electric cooperatives. The grant was announced Wednesday in Locust Grove, south of Atlanta, by U.S. Energy Secretary Jennifer Granholm.

Are state resourcing plans updating battery energy storage systems?

State resourcing plans are increasingly updating battery energy storage systems (BESS) plans, especially those tied to solar. US utility Georgia Power has filed its 2025 update to its Integrated Resource Plan (IRP) with the first update since 2023 showing further acceleration in the utility's adoption of (BESS).

Will Georgia Power add more energy storage in 2028?

Also notable is that Georgia Power is looking at longer duration energy storage, with 3,000 MW per year of 4-hour energy storage is projected to be added starting in 2028, while 3,000 MW per year of 12-hour energy storage is planned from 2033. Small-scale BESS boost.

How much money does Georgia spend on energy projects?

Officials on Wednesday announced \$3.46 billion for 58 projects across 44 states. Oglethorpe Power Corp., Georgia Transmission Corp., Georgia System Operations and Green Power EMC have committed to spend a total of \$507 million on the projects, including the \$250 million in federal money.

Georgia Power to update energy forecasts amid uncertain ...

Jul 10, 2025 · ATLANTA - An agreement Georgia Power and state energy regulators reached this week acknowledges that the utility's forecasts for future energy demand are uncertain at best ...

Research on mobile energy storage scheduling strategy for emergency

Dec 1, 2024 · Aiming at the problem of insufficient power supply capacity of isolated loads in oceanic islands, a concept based on mobile energy storage and power conservation is ...

Peach State power play: Georgia's blueprint for grid-scale energy storage

Jul 30, 2025 · Georgia isn't merely adding megawatts, it is filling a genuine capacity gap with ready-to-build projects, an anchored supply chain, and a clear procurement schedule. Despite ...

Georgia Power's 2025 IRP: Further shift towards battery

...

Feb 4, 2025 · State resourcing plans are increasingly updating battery energy storage systems (BESS) plans, especially those tied to solar. US utility Georgia Power has filed its 2025 update ...

Peach State power play: Georgia's blueprint for grid- scale energy storage

Jul 30, 2025 · Georgia has emerged as a major hub within this burgeoning domestic supply chain, particularly for the electric mobility sector, which shares technological and manufacturing ...

Research on emergency distribution optimization of mobile power ...

Nov 1, 2022 · Request PDF , Research on emergency distribution optimization of mobile power for electric vehicle in photovoltaic-energy storage-charging supply chain under the energy ...

\$249M in federal grid money for Georgia will boost electric

Oct 20, 2023 · ATLANTA (AP) -- A \$249 million federal grant to Georgia aims to prevent power outages and store electricity on the grid. The money was granted to a state agency, which will ...
