

SolarInnovate Energy Solutions

Helsinki Power Storage Vehicle Customization Company

Overview

Why do we design and manufacture batteries in Finland?

Our goal is to accelerate the shift by decarbonizing electricity, enabling electric transportation, and reducing heating emissions for a cleaner future. We design and manufacture our batteries in Finland, a country renowned for its engineering excellence and commitment to sustainability.

Who is heliostorage?

Heliostorage's journey began with a group of creative engineers in a garage, determined to make heating better and more efficient. We were driven by the age old issue caused by seasonality; In winter, when it's cold and sunny days are rare, buildings need heating. In summer, when there's plenty of sun, buildings need cooling.

What is Business Finland preparing for the future of electric motoring?

Business Finland aims to accelerate the emergence of new battery solutions and is thus preparing for the future of electric motoring. "We have launched a program related to batteries. The goal is to develop the Finnish ecosystem so that batteries could be manufactured here.

How has business Finland contributed to Virta?

Business Finland has been involved in Virta journey since its beginning. As the company has grown, its projects have also grown. Business Finland financed the virtual power plant project with EUR 20 million, and this contribution helped Virta to raise EUR 65 million in capital investments from its current investors in the spring of 2023.
