

## SolarInnovate Energy Solutions

# High power container generator set

## Overview

---

What is container type diesel generator set?

Container type Diesel Generator Set Jet power supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator set will not be damaged due to under high pressure in transport, and is suitable for ship transportation.

What is jet power supply container type generator set?

Jet power supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator set will not be damaged due to under high pressure in transport, and is suitable for ship transportation. We can supply the 20' container, 40' container, and widen or heighten container type.

What is gencircle supply container type generator set?

Gencircle supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator set will not be damaged due to under high pressure in transport, and is suitable for ship transportation. We can supply the 20' container, 40' container, and widen or heighten container type.

What are the different types of container generators?

We can supply the 20' container, 40' container, and widen or heighten container type. They are divided into the normal type and silent type. This series generator set can be easily moved to the desired location, can run under the most demanding working conditions.

What are mg containerized gensets?

MG containerized type gensets use advanced sound-absorbing materials, scientific and unique design in airflow and noise control. The container is with CSC certification, in line with international container security convention,

ensures shipping directly as a standard container, and greatly saves the cost of transportation.

How much power does a jet power genset use?

Jet power container type generator set can divide into 20' container type and 40' container type, The container type genset can be directly shipping as a standard container, greatly save transportation costs. The power below 1250kva, it use the 20 container type, and it'll use 40' container type if the genset power above 1250kva.
