

SolarInnovate Energy Solutions

High quality power switchgear in Angola

Overview

Does Angola have a transmission system?

Angola's transmission infrastructure is one of the least efficient in Africa, being made up of three separate grid systems (northern, central, and southern), in addition to isolated grids in the east. The northern grid services Luanda, Bengo, Malange, Kwanza Norte, and Kwanza Sul.

Will Angola be a part of the southern African Power Pool?

Plans exist to link the grids through a north-central-south backbone and expand the grid from 3,354 km to 16,350 km by 2025. Angola is currently a non-operating member of the Southern African Power Pool, but plans exist to connect to the pool through Namibia and the Democratic Republic of Congo.

How will Angola achieve a 60% national electrification rate?

Increasing electric power availability to diversify the economy and meet the increasing energy demand of a growing and more prosperous population, the Angolan government has stated that it wishes to increase generation capacity to 9,900 megawatts by 2025 and achieve a national electrification rate of 60%.
