High wattage solar lights outside the courtyard

Overview

What are the best outdoor solar lights?

Determine what you need to be illuminated and where you have space to install outdoor lights to find the best outdoor solar lights for your space. Our top pick for most outdoor spaces is the AloftSun Motion Sensor Solar Landscape Spotlights. During testing, they withstood our durability tests, were easy to use, and were bright enough to read under!.

Are solar lights a good option for outdoor space?

One great way to illuminate your outdoor space is with solar lights. Sarah Jameson, marketing director of Green Building Elements, says, "Solar lights, compared to low voltage and line voltage outdoor lights, are safer and more DIY-friendly since there's little to no wiring required at all.

What are the best solar powered outdoor string lights?

If you're looking for a set of string lights, we loved the Brightech Ambience Pro Solar Powered Outdoor String Lights, because they held up to water and freezing temperatures. At our testing lab in Des Moines, Iowa, we put 27 outdoor solar lights to the test.

What are the best solar landscape spotlights for outdoor spaces?

Our top pick for most outdoor spaces is the AloftSun Motion Sensor Solar Landscape Spotlights. During testing, they withstood our durability tests, were easy to use, and were bright enough to read under! These spotlights can detect motion from as much as 33 feet away, depending on the setting.

Are outdoor solar lights weather-resistant?

Since most outdoor solar lights are left out year-round, it's important to consider if they're weather-resistant. Most are designed with materials that can withstand inclement weather, such as freezing or high temperatures, rain, and direct sunlight. All of the lights we tested passed our weather tests.

Where should outdoor solar lights be placed?

To get the best results from your outdoor solar lights, place them where they get 6 to 8 hours of direct sunlight. If they're designed to be wall-mounted, consider placing them up high, so they're closer to the sun.

High wattage solar lights outside the courtyard
