Home 24v DC solar air conditioner

Overview

What is acdc24c solar air conditioner heat pump?

ACDC24C Two-Ton (24,000) BTU Solar Air Conditioner Heat Pump This is the 5th generation of our ACDC12x solar air conditioner series with a new key feature we've had so many requests for - our new "C" model ACDC12C solar air conditioning technology requires no grid connection.

What is a acdc12c solar air conditioner?

The ACDC12C hybrid solar air conditioner allows you to add comfort without adding energy cost, and can sharply cut your daytime heating and cooling bills. Get up to 100% of your daytime cooling (or heating) free from the sun. Plug-N-Play solar connections make installation simple. Over SEER 22 on normal AC power.

Does acdc12c offer a 5th generation solar AC?

We are pleased to offer our 5th generation solar AC, the model ACDC12C. Like our previous solar hybrid versions, the ACDC12, and ACDC12B, the ACDC12C blends solar DC power directly with AC power to deliver a seamless cooling or heating experience while making the best use of free DC solar power.

Who is the best solar air conditioner manufacturer in China?

SUPERGREEN TECH CO.,LTD,one of the most professional Solar Air Conditioner, manufacturer for solar powered home appliances in China.

Does the acdc12c solar heat pump work?

In addition to cooling, the ACDC12C solar heat pump will provide solar powered heating, operating all the way down to an outside ambient temperature of 5 ° F. No matter how far north or south you are, this is the right system for you. No net metering needed. Single indoor unit.

Do acdc12c solar air conditioners need batteries?

ACDC12C solar air conditioners need no batteries, and uses three or more (up to six) solar PV panels to deliver a huge savings. During the day, when air conditioning is needed the most, you can operate this unit with very little or no draw on your utility meter. At night, you continue to save due to the official SEER 22 rating on this unit.
