Baud rate:9600bps

## Overview

---

Ethiopia's government-owned operator Ethio Telecom (ET) has launched a 5G mobile phone service in the capital Addis Ababa. With temporary spectrum approval its strategic partner Huawei has built six mobile base stations with a view to expanding to 150 regional sites in the next year.

According to Reuters, new entrants to the market have stimulated greater competitive activity and galvanised the national carrier into action. ET is facing competition.

Speaking at the launch event Ethio Telecom CEO Frehiwot Tamru said: "The 5G service is [to be] launched in selected places in Addis Ababa." In the coming 12.

In June 2021 the Ethiopian government launched a tendering process to sell off a 40% stake in Ethio Telecom to private investors. In March 2022, the government.

With a population of 110 million Ethiopia has much potential as a developing economy but it sold only one of two full-service recon licences on offer in May.
