# How many volts does the Belize base station power supply have

## Overview

---

What voltage does Belize have?

The voltage range for Belize is 110/220V, while the standard frequency is 60Hz. Belize is unusual in that it has multiple voltage types depending on the region or city. The power supply is inconsistent throughout the country and some locations run power at 220V, while others run it at 110V. Belize has three compatible plug types – A, B, and G:.

Does Belize have a power supply?

The power supply is inconsistent throughout the country and some locations run power at 220V, while others run it at 110V. Belize has three compatible plug types – A, B, and G: Power outlets are not always safe in Belize, so always approach with caution when plugging and unplugging your devices.

Do I need a voltage converter in Belize?

U.S. travelers do not typically need a voltage converter in Belize; however, you will require a voltage converter if the voltage exceeds the maximum limit. You will also need a voltage converter if the voltage is far less than devices in your native country. Converters are only required for devices that are not dual-voltage.

Can you use a power outlet in Belize?

Belize has three compatible plug types – A, B, and G: Power outlets are not always safe in Belize, so always approach with caution when plugging and unplugging your devices. Even if two countries operate on the same voltage, their outlets may not accept the same plug shape. What kind of adapter do I need for Belize?

.

Can I use a transformer in Belize?

Electricity supplies worldwide can vary from anything between 100V and 240V. It can be extremely dangerous to use an electrical appliance that is rated at a voltage different from the supply. As voltage can differ from country to country, you may need to use a voltage converter or transformer whilst in Belize.

What type of plug does Belize use?

Belize uses three different plug types: A, B, and G. Plug type A has two flat parallel pins, while plug type B has two flat parallel pins with a grounding pin. Plug type G is a three-pin plug with two rectangular pins and a larger, round earth pin. The standard voltage in Belize is 110/220 V and the frequency is 60 Hz.
