How much does Bahrain s outdoor energy storage power supply cost

Overview

Where does Bahrain's energy supply come from?

Bahrain's energy supply comes largely from the exploitation of its domestic fossil fuels resources. The country is also a major producer and exporter of oil, petroleum products and natural gas. Bahrain's energy supply comes largely from the exploitation of its domestic fossil fuels resources.

Why has Bahrain resorted to austerity?

The fall in oil prices since 2014 (and absence of buffers despite the 2016-2018 recovery) has caused a significant deterioration in Bahrain's public finances. Consequently, the government resorted to austerity measures, with several increases in fuel prices over the last 6 years.

How much energy does the Middle East consume per capita?

Per capita energy consumption reached 9 toe in 2021 (three times higher than the Middle East average and 5 times the global average), while electricity consumption per capita was 19 MWh (5 times the Middle East average and 6 times the global average), due to the aluminium sector.

Where is Bahrain located?

Bahrain is an island nation in the Persian Gulf, located between the Qatar peninsula and the north-eastern coast of Saudi Arabia. Bahrain is part of the Gulf Cooperation Council (GCC): the regional political and economic union comprising six countries of the region (Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, and the United Arab Emirates).
