# How much does a 10kw solar home system cost

## Overview

---

On average, a 10 kW solar panel system costs \$25,400, according to real-world quotes on the EnergySage Marketplace from 2025 data. How much does a 10kW solar panel cost?

This depends on the tilt angle, orientation, and geographical position of the solar power system. What is the cost of the materials for a 10kW solar panel system?

To directly answer your question, the cost of purchasing the materials for a 10kW solar power system can range from US\$9,900 to US\$14,800, excluding installation and permitting costs.

How much does an off grid 10kW Solar System cost?

The average cost of an off grid 10kW solar system is \$19,000. This price includes the cost of installation and the panels themselves. However, it does not include the cost of batteries, which can range from \$2,000 to \$10,000 depending on the type and size of battery you choose.

Is a 10 kW solar system too expensive?

Although this expense can be financed or recouped via energy bill savings (which we'll get into more later on), 10 kW of solar may still be too expensive for some homeowners. Just remember that a 6kW system or even a 3kW system can still help most Americans reduce their long-term energy expenses.
