How much is the Spanish EK outdoor power supply

Overview

How do I pay my electricity bill in Spain?

You can also pay your bills through the post office, local banks or at the electricity company's office. Most parts of Spain receive an electricity supply of 220 volts AC at a frequency of 50 hertz. On the other hand, some areas receive 110- and 220-volt in the same house. Most appliances made for 240 volts will operate on a 220 volts power supply.

How to set up electricity in Spain?

You will need to choose an electricity supplier when setting up utilities in Spain. If you purchase a property that already has power connected and don't want to change suppliers, you have to contact the supplier and give them the details of the new person paying the bills.

How many electricity suppliers are there in Spain?

Spain's electricity market is dominated by 3 main suppliers: Grupo Endesa, Iberdrola & Gas Natural Fenosa. Combined the 3 electricity suppliers account for an estimated 50% of the Spanish electricity market. While still highly concentrated, a number of smaller electricity suppliers have entered the market since deregulation in 1998.

How do I set up utilities in Spain?

If you purchase a home in Spain, the estate agent may make arrangements for utilities to be transferred to your name. Also, make sure that all the bills have been paid and the contract is put under your name. You will need to choose an electricity supplier when setting up utilities in Spain.
