

SolarInnovate Energy Solutions

Huawei Bandar Seri Begawan s new photovoltaic panels

Overview

Will Huawei Malaysia supply solar inverters to SunView?

The partnership, formalised through a Memorandum of Understanding (MoU), will see Huawei Malaysia supplying solar inverters to Sunview. By integrating Huawei's cutting-edge smart PV solutions, users will be able to receive better and higher yields at lower costs, delivered at an optimum value.

How will Huawei's smart PV solutions benefit SunView?

By integrating Huawei's cutting-edge smart PV solutions, users will be able to receive better and higher yields at lower costs, delivered at an optimum value. Under the MoU, Sunview will become the purchaser of the inverters and turnkey solutions for large-scale solar projects.

Is Huawei a smart PV company?

Huawei is a global leading provider of fully digitalised smart PV solutions, harnessing more than 30 years of expertise in information and communications technology and serving more than a third of the world's population.

Is Huawei supporting Malaysia's green energy growth?

Simon Sun, CEO of Huawei Malaysia, emphasized the company's commitment to supporting Malaysia's green energy growth. He highlighted the approaching era of PV and Energy Storage (PV+ESS) parity, where the combination of solar power and energy storage will become the most economical and universal form of power.

Will Huawei's fusionsolar C&I Oasis solution help Malaysia achieve its green energy goals?

Looking forward, Huawei's pioneering FusionSolar C&I OASIS Solution is set to be a cornerstone in Malaysia's quest to achieve its renewable energy goals by 2025. As the nation accelerates its green energy transition, safety remains a

top priority.

How will Huawei's solar inverters help us achieve zero-carbon goals?

“Looking ahead, the incorporation of Huawei’s solar inverters will help strengthen the solar energy solution experience, allowing us to use innovative technologies to progress towards creating a self-generating energy environment and meeting the zero-carbon mission goal,” he added.
