Huawei Energy Storage Product Standards

Overview

Does Huawei's fire-free energy storage system redefine safety?

Abstract: With the battery pack-level thermal runaway control, Huawei's fire-free energy storage system (ESS) redefines safety. [Shenzhen, China, December 24, 2024] Huawei Digital Power and TÜV Rheinland jointly completed ESS safety tests on Huawei's Smart String & Grid Forming ESS Platform (LUNA2000-4472 series and LUNA2000-215 series).

Is Huawei's smart string energy storage system ESS certified?

[Shanghai, China, June 4, 2021] At SNEC 2021, Huawei's smart string energy storage system (ESS) for residential use, the LUNA2000, received 2PfG 2698/08.19 and VDE-AR-E 2510-50 certificates from TÜV Rheinland, a Germany-based testing and certification service provider.

Who is Huawei?

"Huawei is a leading company in the smart PV and energy storage industry. Its products have achieved both 2PfG 2698/08.19 and VDE-AR-E 2510-50 energy storage system certification, and passed the most rigorous certification standards in the world.

Does Huawei's smart string & grid forming ESS (container a) have a thermal runaway?

However, in Huawei's Smart String & Grid Forming ESS (container A), thermal runaway occurred in 12 cells without incident. The system's innovative combined defense mechanism—positive pressure oxygen barrier and directional smoke exhaust duct—effectively vented combustible gases.

What is Huawei digital power?

With safety as its top priority, Huawei Digital Power is driving the healthy and sustainable development of the energy storage industry, and making valuable contributions to the creation of clean, low-carbon, safe, and efficient new

power systems.

Does Huawei ESS pass the extreme ignition test?

[Shenzhen, China, February 21, 2025] Huawei Digital Power's Smart String & Grid Forming Energy Storage System (ESS) has successfully passed the extreme ignition test, witnessed by customers and DNV, a globally recognized independent organization in assurance and risk management.
