

**SolarInnovate Energy Solutions**

# **Huawei Energy Storage Project General Contractor**

## Overview

---

Will Huawei supply battery energy storage technology to world's largest solar project?

Huawei Wins Bidding to Supply BESS Technology to World's Largest PV Energy Storage Project (Yicai Global) Oct. 22 -- A subsidiary of China's Huawei Technologies has won the bidding to supply battery energy storage system technology to the world's largest solar power storage project, according to The Paper.

Is Huawei partnering with sepcoiii for a 1300 MWh off-grid battery energy storage system?

Huawei has recently signed the contract with SEPCOIII at Global Digital Power Summit 2021 in Dubai for a 1300 MWh off-grid battery energy storage system (BESS) project in Saudi Arabia, currently the world's largest of its kind.

What is Huawei's Red Sea energy storage project?

This project also represents the largest energy storage project since Huawei officially launched the Smart String Energy Storage Solution for utility-scale PV power plants in June 2021. Sitting on the Saudi Arabian Red Sea coast, the Red Sea project is one of the key projects as part of the Saudi Vision 2030.

What makes Huawei a great energy storage company?

Huawei has more than 10 years of experience developing and researching energy storage systems, and this has been applied throughout a global installed base of more than 8 GWh.

What will Huawei do for Saudi Arabia's Red Sea project?

The Huawei unit will provide a 1,300-megawatt BESS to the Red Sea Project, a new tourist-focused city to be built on the Saudi Arabian coast. Saudi ACWA Power will develop the energy storage project, which will begin construction work next June and complete by March 2023, with SEPCO III as the general

contractor.

How does Huawei's energy storage solution work?

Huawei's energy storage solution solves the problem of operating large independent photovoltaic energy storage networks safely and stably and cuts the cost of electricity generation in the project's life cycle to less than 10 US cents per kilowatt hour, Huawei told The Paper.
