# **Huawei Pretoria Energy Storage System Integrated Warehouse**

## Overview

---

Does Huawei have a Smart Warehousing facility in South Africa?

(Source: Huawei) Chinese multinational Huawei has opened a smart warehousing facility focused on green energy, e-security, and modern logistics (GEM) this week in Johannesburg, South Africa. The facility is equipped with advanced artificial intelligence (AI) for access control and the latest warehouse management system applications.

What is Huawei's smart warehouse solution?

Huawei's smart warehouse solution enables companies to meet their own energy needs and achieve further returns on investment by trading excess power back to the grid. E-security: An intelligent camera system provides 24/7 full color coverage and AI-enabled features to detect safety hazards and security incidents.

Will Huawei South Africa revolutionise logistics operations in Africa?

Huawei South Africa has launched its leading smart warehouse solution in Johannesburg. This strategic investment has the potential to revolutionise logistics operations in Africa.

How is Huawei transforming Africa's Logistics Sector?

Huawei is transforming Africa's logistics sector by introducing intelligent systems to enhance efficiency and reduce costs. This smart warehouse represents the future of the industry and showcases Huawei's commitment to innovation in Africa.

What does Huawei's new warehouse mean for Africa's Logistics Industry?

According to Huawei, the new warehouse isn't just a company milestone—it's a vision of the future of logistics in Africa. "Huawei is transforming Africa's logistics sector by introducing intelligent systems to enhance efficiency and reduce costs," the company stated.

How does Huawei South Africa's warehouse work?

"The warehouse facility is split into two sections, one section is dedicated to in and outbound tech movement, while the other section handles localized supplies and spare parts," Stevin du Plessis, logistics manager for Huawei South Africa's supply chain business department, explained during a tour of the facility in Johannesburg.
