Huawei energy storage battery investment

Overview

Did Huawei invest in Hina battery technology?

The investment in HiNa Battery Technology Co. Ltd., a Jiangsu province-based company that develops sodium-ion batteries for electric vehicles (EVs) and industrial energy storage, was made through Huawei's venture capital arm Shenzhen Hubble Technology Investment Partnership, according to public business records.

Is Huawei launching a battery startup in China?

Photo: IC Photo Embattled telecoms equipment manufacturer Huawei Technologies Co. Ltd. has deepened its push into the growing energy storage industry, investing in a Chinese battery startup that uses a more accessible alternative to rare and expensive lithium.

Does Huawei make power batteries?

Although Huawei does not manufacture power batteries directly, its growing interest in upstream battery materials is notable. Earlier in 2025, the company submitted another patent focused on synthesizing sulfide electrolytes—a vital component known for its high conductivity but also high costs, sometimes exceeding the price of gold.

Why is Huawei pursuing solid-state battery research?

Huawei's engagement in solid-state battery research reflects a wider trend among Chinese technology and automotive companies. Although Huawei does not manufacture power batteries directly, its growing interest in upstream battery materials is notable.

Why did Huawei invest in a sodium-ion battery maker?

Huawei has invested in a sodium-ion battery maker as the tech giant increases bet on China's booming electric vehicle industry which has seen a wave of price hikes on rising raw material costs since March. Photo: IC Photo.

Does Huawei have a sulfide battery?

Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres and ultra-fast charging in just five minutes.

Huawei energy storage battery investment

What technology does Huawei use for energy storage batteries?

Jul 18, 2024 · Huawei has emerged as a key player in the energy storage sector by employing a variety of advanced technologies. 1. The company utilizes lithium-ion technology, which is ...

CloudLi , Intelligent Lithium Battery Solution , Huawei

Jul 1, 2025 · 5th Generation CloudLi Solution CloudLi integrates power electronics, IoT, and cloud technologies to implement intelligent energy storage in scenarios involving power equipment ...

Huawei Patents 3,000km Solid-State Battery with 5-Minute ...

Jun 19, 2025 · Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres ...
