# Huawei inverter 5 kW price

## Overview

---

What is the Huawei SUN2000L 3.68KTL-L1?

The Huawei SUN2000L 3.68KTL-L1 is an advanced solar inverter from Huawei. It is part of Huawei's solution for C&I and residential customers, based on the 'Optimal Electricity Cost and Active Safety' concept. Huawei has helped to power millions of residents and hundreds of industries globally by improving the utilization of solar power with high efficiency inverter topology (Max. Efficiency 98.4%).

How does the Huawei sun2000-5ktl-m1 5kW inverter work?

The Huawei SUN2000-5KTL-M1 5kW Inverter incorporates 2 MPPT that allow the installation of the panels in two groups, so that each of the groups can be installed with a different inclination, orientation or with different electrical characteristics.

Where are Huawei solar inverters made?

With more than 194,000 employees and operations in over 170 countries and regions, the company doesn't seem to stop and is actually achieving big milestones at a very high rate. Even though Huawei has establishments all over the world, the main manufacturing location for its solar inverters is still China.

Why should you buy a Huawei inverter?

HUAWEI inverters are durable, premium-quality technological marvels. High-quality engineering and optimum connectivity enable solar energy plants to work efficiently for many decades. Huawei products are constantly improved and subject to rapid technological advances. In our table you will find an overview of all inverters from Huawei.

Why should you buy a Huawei sun2000-4ktl inverter?

Thanks to these integrated MPPTs, the Huawei SUN2000-4KTL inverter

maximizes the efficiency of the solar panels, so that the investment made is amortized faster, since maximum energy is offered to the home at all times depending on the number and type of solar panels installed and the solar radiation they are receiving.

Which is the most powerful Huawei inverter?

The Huawei SUN2000-215KTL-H0 is currently the most powerful inverter from Huawei FusionSolar. It impresses with its compact dimensions and low total weight. The inverter is connected via DC connectors and via a generous AC connection area.
