

SolarInnovate Energy Solutions

Huawei photovoltaic wearresistant glass

Huawei photovoltaic wear-resistant glass

Super impact-resistant, highstrength, scratch-resistant, and ...

Jun 14, 2025 · Inspired by the distinct energy dissipation mechanisms of glass and polymers under yield stress, we report a novel transparent film material that exhibits glass-like hardness, ...

???????? ???? , ????????

Mechanically robust and selfcleaning antireflective coatings ...

Sep 15, 2024 \cdot The humidity resistance was evaluated by accelerated humidity and temperature (HAST) test at a temperature of 100 °C and a relative humidity of 100 %. The solar cell J-V ...
