# **Irish outdoor power supply export tariff**

## Overview

---

Can you sell electricity back to the grid in Ireland?

Individuals looking to sell electricity back to the grid in Ireland can choose between three options: net metering, a clean export guarantee, and feed-in tariffs. Net metering: this option allows individuals to offset their electricity usage with electricity generated from their businesses and homes.

How will US tariffs affect Irish Exporters?

Global trade dynamics are shifting rapidly. Recent US tariffs, and the potential for escalation including taxes on services, could present significant challenges for Irish exporters that sell to the United States. Customer relationship strain: Rising prices and uncertainty may push your US buyers to look for alternatives.

What is a feed-in tariff in Ireland?

Feed-in tariffs in Ireland operate as a financial incentive for producing renewable energy. When your solar panels generate surplus energy beyond your needs, this excess can be sold back to the grid. The feed-in tariff represents the set rate you receive per unit of electricity fed back.

What are feed-in tariffs & clean export guarantee?

Feed-in tariffs: this option offers sellers a fixed amount of money per unit sold back to the grid. Clean Export Guarantee: This is a government program designed to incentivise individuals to generate electricity. It guarantees sellers a fair price for extra electricity exported to the grid.

How do I get paid if I export excess electricity?

You receive payment for the excess electricity you export back to the grid, but only up to a maximum of 8kW at any given time. The Microgeneration Support Scheme (MSS) is a program in Ireland. It financially supports homeowners and businesses that generate electricity using renewable energy sources.

## What is Enterprise Ireland doing with PwC?

Enterprise Ireland, in partnership with PwC recently hosted a “Trade, Tariffs and More” webinar that provided an overview of the newly introduced tariffs in the US, explored future considerations for cross-border trade, and discussed tax and trade policies. Please register through the link below.
