# **Japan Communication Base Station EMS Construction Project**

## Overview

---

Can base stations be installed in scenic areas in Japan?

In Japan, many base stations have been installed on steel towers and building rooftops to achieve high-speed and reliable mobile communication over wide areas. However, there have been challenges, such as restrictions on the installation of base stations in scenic areas due to landscape considerations.

Where will 5G base stations be installed in Osaka Metro & Sumitomo?

In this PoC, Osaka Metro and Sumitomo Corporation will be installing 5G base stations in the railway tunnel between Namba Station and Shinsaibashi Station on the Midosuji Line, and inside the station premises to enable base station sharing by multiple cell phone carriers.
