Overview

What is a JBL eon208p PA system?

Thank you for choosing the JBL EON208P PA system. The EON208P is a self-contained, portable PA system featuring multiple input channels with individual tone controls, Bluetooth ® audio streaming, reverb and convenient output routing capabilities that allow the user to integrate the system into any number of audio environments.

What is a JBL 208p?

JBL Professional is the world's leading manufacturer of loudspeaker systems, using custom designed and built drivers to achieve optimal performance. The 8 inch woofers and 1 inch dome tweeters on the 208P combine to deliver crisp, deep bass response, clear, unmuddled mids and extraordinary detail and balance in high frequencies.

How many watts is a JBL portable PA?

With 300 watts, you'll have more than enough volume to be heard. Plus, the compact and lightweight form factor means you can carry the entire system with one hand. Legendary JBL audio quality and versatile operation make it the most sophisticated, easy-to-use portable PA.

How do I use a JBL Professional mixer?

Simply connect your mics, instruments and other sound sources and start performing. The intuitive mixer helps you dial-in great live sound quickly and easily. JBL Professional is the world's leading manufacturer of loudspeaker systems, using custom designed and built drivers to achieve optimal performance.

What does the Arrowhead symbol mean on a JBL eon208p PA system?

The lightning flash with the arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of un-insulated "Dangerous

Voltage" within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons. Thank you for choosing the JBL EON208P PA system.

Why should you buy a JBL monitor?

Then take it to the office for the big presentation on Monday. With uncompromising JBL sound quality and effortless portability, you'll want to take it everywhere. The versatile enclosures facilitate stacking, pole mounting and monitor position.
