# **Jordan Energy Storage Sodium Battery EK**

## Overview

---

Is battery energy storage possible in Jordan?

In response to this, Fichtner in collaboration with the Jordanian Ministry of Energy and the transmission system operator, NEPCO, has analyzed the potential for battery energy storage and, in the role of Transaction Advisor, is providing support for implementing a pilot project.

Could a \$40 million battery facility push forward Jordan's energy storage ambitions?

Jordan's government has reportedly agreed on proposals for a \$40 million battery facility to push forward the country's energy storage ambitions.

Are sodium-ion batteries a good storage technology?

As such, sodium-ion batteries (NIBs) have been touted as an attractive storage technology due to their elemental abundance, promising electrochemical performance and environmentally benign nature.

Where will a new battery plant be built in Amman?

The paper quoted energy minister Saleh Kharabsheh (pictured) as saying the “first of its kind in the region” facility would be built in Maan, 220km south of the capital Amman. No battery technology for the project was specified.

How much electricity is generated by solar & wind power plants in Jordan?

Kharabsheh told the paper electricity generated by solar and wind power plants in Jordan as of the end of 2017 was around 500MW— a level he wants to increase to 2,700MW by 2021.

Will Al Badiya power generation install a 12mwh lithium-ion battery system?

BBB reported last year that an agreement had been signed to install a 12MWh lithium-ion battery system at Al Badiya Power Generation’s solar power plant

in Al-Mafraq, Jordan, as part of an expansion of the facility.
