Koten circuit breaker factory in Japan

Overview

Why are Japanese circuit breaker manufacturers introducing arc fault detection?

Japanese manufacturers have introduced several groundbreaking innovations in circuit breaker technology. These advancements have set new standards in the industry and provided users with superior protection and functionality. One of the most notable innovations is the incorporation of arc fault detection.

Where is KOTEN based?

KOTEN's main facility and head office is located at 439 Jui-Kuang Road., Taipei Taiwan and our Wholesaler's office is at 218 Lucban St., Pasay City Philippines. The panel board manufacturing plant and warehouse facility is strategically located at No. 6 LBICA Compound Malinis St., Valenzuela City.

How did Japan improve circuit breaker technology?

Japan's journey in enhancing circuit breaker technology is marked by a relentless pursuit of improvement and adaptation to evolving market needs. In the aftermath of World War II, Japan focused on rebuilding its industrial base. Early circuit breakers were primarily designed for basic electrical protection.

Where is KOTEN panel board manufacturing company located?

Since quality is our main objective, we have decided to establish our own panel board manufacturing company in the year 2000 for us to be able to meet the demands of our growing clients. KOTEN's main facility and head office is located at 439 Jui-Kuang Road., Taipei Taiwan and our Wholesaler's office is at 218 Lucban St., Pasay City Philippines.

Are Japanese circuit breakers worth the cost?

While Japanese circuit breakers offer long-term cost savings, the upfront costs can be higher compared to alternatives from other regions. Organizations

must evaluate their budget constraints and assess the total cost of ownership when making procurement decisions.

Who is KOTEN Enterprises?

KOTEN ENTERPRISES COMPANY, INCORPORATED was established in 1987 as a trading company. Expanded our operations as an importer, exporter, distributor, and wholesaler in 1997.
