

## **SolarInnovate Energy Solutions**

# **Kuala Lumpur energy storage equipment supporting manufacturers**

## Overview

---

What is a battery energy storage system (Bess) in Malaysia?

1. Ditrolic Energy Ditrolic Energy is at the vanguard of Malaysia's transition to sustainable energy, offering versatile Battery Energy Storage System (BESS) solutions. These systems are not just stand-alone; they can be integrated with solar, wind, or microgrid setups, underpinning a future-proof energy strategy.

Why do you need energy storage systems?

Our energy storage systems are compatible with storing energy from renewable sources, making them an ideal solution if you want to reduce fuel consumption of a diesel generator, add reliability to a hybrid system or microgrid, or to simply optimise your business case through smart energy management – our solutions are at your service!.

What is a battery energy storage system?

Understanding BESS At the heart of the renewable energy revolution, Battery Energy Storage Systems (BESS) serve as the linchpin for a resilient and efficient electrical grid. BESS technology is designed to store surplus energy generated from renewable sources like solar and wind, to be deployed when demand peaks or generation dips.

Why should you invest in Malaysia's patented technology?

Backed by the Malaysian Government, we utilise our Patented Technology for a wide range of Stationary and Dynamic Applications. We believe that good product innovation is powerful, hard work is essential but exploring the unknown together is crucial. Together, we chart the future!
