## Overview

---

How can Honeywell help protect your energy storage systems?

Honeywell's advanced OT cybersecurity solutions can help protect your energy storage systems. Our comprehensive approach helps safeguard your operational technology from cyber threats, supporting the integrity, availability and confidentiality of your systems.

Why should you choose Shanghai Zee energy storage technology?

This enhances automation, intelligence, and flexibility in production, ensuring the highest standards of safety and quality in our products Shanghai ZOE Energy Storage Technology Co., Ltd., established in 2022, is dedicated to providing global users with safe, efficient, and intelligent energy storage product system solutions.

Who is Shanghai Zee energy storage technology?

Shanghai ZOE Energy Storage Technology Co., Ltd., established in 2022, is dedicated to providing global users with safe, efficient, and intelligent energy storage product system solutions. The company is headquartered in Shanghai, with its R&D center in C.

Why should you invest in energy storage solutions?

Solutions that can support you improving your energy storage operations, empower your workforce with advanced tools and provide actionable insights and visualization to enhance efficiency and help you achieve your energy storage goals. Technologies to help expand the supply of sustainable aviation fuel.

Why is energy storage important?

In the global energy transition, energy storage is key to integrating generation, grid, load, and storage systems. It enhances grid stability, addresses renewable energy intermittency, and supports a resilient, efficient,

and sustainable energy infrastructure, enabling the seamless adoption of clean energy.

What is China's Energy Storage Center?

Through strategic partnerships with the Chinese Academy of Sciences, Zhejiang University, and the University of Electronic Science and Technology of Chengdu, the center advances the development and application of cutting-edge energy storage technologies. The company operates advanced energy storage factories with a total capacity of 4GWh.
